

Qs 1, 2, 3:

a. I have chosen Movie as an object.

For the Movie object the 'character' attribute has been chosen to fetch the movies from YAGO

Query:

```
PREFIX vcard:<http://schema.org/character>
SELECT ?author
WHERE
{ ?author vcard: ?g }
```

b. I have chosen Place as another object.

For the Place object the 'faxNumber' attribute has been chosen to fetch the places from YAGO

Query:

```
PREFIX vcard:<http://schema.org/faxNumber>
SELECT ?faxNumber
WHERE
{ ?faxNumber vcard: ?g }
```

4. Extra problems

a.

A query (Just for one specific Movie 'Ring_of_Fire_(2013_film)') below returns the attributes of that movie.

Query:

```
PREFIX vcard:<http://yago-
knowledge.org/resource/Ring_of_Fire_(2013_film)>
SELECT * WHERE
{ vcard: ?Attributes ?Values }
```

b.

A query (Just for one specific Place
'Grace_Mellman_Community_Library') below returns the attributes of
that place.

Query:

```
PREFIX vcard:<http://yago-  
knowledge.org/resource/Grace_Mellman_Community_Library>  
SELECT *  
WHERE  
{ vcard: ?Attributes ?Values }
```
